Autodialer Entry Panel with EL Directory   Model 8010 / EL

DOORGUARD

Doorchek 8000 Series

System Concept

The 8000 Series is designed for residential and commercial applications. We are additionally introducing state of the art flat panel Electroluminescent Displays. This technology can operate in wide temperature ranges (indoor/outdoor applications), and has superior reliability and visibility. The Liquid Crystal Display utilizes the latest Triple Superwist technology. The system is feature packed and can be tailored to specific customer requirements. The Entry System Electronics have the same proven quality & features of our Autodialer and NPL Systems. The enclosure is constructed of anodized aluminum and can be ordered in various finishes to complement any lobby decor.
